

Infection Control  
ER, OR, Burn, L&D  
and Patient Care

## ***DriPAD Super Absorbent Pads***

... featuring a broad spectrum antimicrobial agent in the pad  
to control bacteria and odors

***To improve the control of biofluids in the ER, OR, OB & Burn Units, and to provide better care for compromised patients at risk of infection, Reach for the Purple Pad ....it's a high performance DriPAD from Quellent!***

Distributed By:

***DriPADs are new and uniquely designed to enable hospital personnel to manage potentially biohazardous fluids and irrigation solutions encountered in the care environment.***

These super absorbent pads can soak-up and trap liters of blood and biofluids -- and their EPA registered and FDA recognized anti-microbial agent controls the bacteria and odors from fluids absorbed by the pad.

Here's how DriPADs can add to a safer and cleaner health care environment, and save you money as well:

**Better Patient Care** - Controlling the microbial and moisture environment around compromised patients can mean the difference between a fast recovery or a life-threatening infection or decubitus ulcer.

**Safer Care Environment** - DriPADs trap pathogens in the fluids they absorb, and won't drip - that's added safety.

**Better Infection Control** - DriPADs are the Right Tool for the Biofluids Job. DriPADs have an antimicrobial agent added to help protect against bacterial vectors and odors, and a bio-barrier back to isolate workers from the biofluids.

**Efficient** - absorbing fluids at their source, before they drip or run along the floor, saves clean-up time.

**Cost Effective** - During the birthing process, or where there is a spill, a leak, or copious irrigation, DriPADs are the most cost effective absorbent liter for liter!

**Reduced Spill Hazards** - When DriPADs are handy, spills get absorbed quickly - workers won't be at risk to slip and fall before housekeeping arrives.

**Absorbs 15 to 30 times its Weight in Fluids**

**DriPADs are:**

- Super Absorbent
- Disposable
- Low Skid
- Available in four sizes:

- 9" x 9"

CG-0909-BP-825

- 23" x 20"

CG-2320-BP-412

- 23" x 32"

CG-2332-BP-412

- 23" x 60"

CG-2360-BP-412

**DriPADs contain an antimicrobial agent to control bacteria and odors in the pad.**
