

CRATE LINERS
for OWNERS
and BREEDERS

STAY DriPAD™

Super Absorbent Pads

... Keeps Your Pet Dry, *and* Controls Bacteria and Odors

When your pet has to go, let it flow! You'll keep them dry when you reach for the Purple Padit's a high performance STAY DriPAD from Quellent!

Distributed By:

DriPADs are new and uniquely designed to enable Pet Owners and Breeders to crate their animals for transport with the comfort of knowing that they will STAY dry and clean.

When your animals need to be confined in their crate for longer periods of time - pull out the Purple Stay DriPADs. Keep their fur dry, even if they have to go, and protect your pet or show dog during shipping, transport or boarding.

The proprietary surface is one-way - urine passes through the surface into the absorptive core, but not back out - so your animal's fur stays dry. And the proprietary absorptive core has an EPA registered Antimicrobial Agent added to it to control bacteria and to reduce odors, even after hours of use. No pad on the market takes care of your animal as well as a DriPAD.

- Don't put your animal on a plane without one!
- Your puppy's first night in a crate? Use a Stay DriPAD!
- Driving your top show dogs to the Regional? Grab a few Purple Pads, and keep them dry, healthy and ready to show.
- Taking your animal to the vet and you know they'll wet? A Purple Pad will keep you, your pet and your vet dry!

Absorbs 15 to 30 times its Weight in Fluids

DriPADs are:
